Summary

Associate Product Manager & Business Analyst with 4.5 years of experience driving product strategy, digital transformation, and process automation at scale. Currently leading 4 internal products at Flipkart & Myntra, enhancing employee experience and feedback systems. Spearheaded 60+ automation deployments using UiPath & Automation Anywhere, saving thousands of operational hours across global teams. Adept at translating complex business needs into scalable solutions, orchestrating cross-functional collaboration, and delivering high-impact products in agile environments. Recognized for bridging technology and business to launch products that optimize experience, efficiency, and adoption.

Experience

1. **Flipkart Internet Pvt. Ltd. – Product Manager and RPA Consultant:** (August 2023 – Present)

Product Management

- Owned and delivered 4 internal products driving employee experience and feedback efficiency across Flipkart & Myntra:
  1. Horizon 360 (Myntra) – Designed, developed, and launched an org-wide employee feedback platform from scratch. achieved 90%+ adoption within first 3 months and presented final rollout to Myntra's CHRO.
  2. Lounge (Myntra) – Led end-to-end development of Myntra's employee experience portal, collaborating with 7 cross functional teams, Achieved 70% adoption within first 3 months post launch.
  3. Reflect (Flipkart) – Led the revamp of the platform as a product manager, managed product roadmap, release cycles, and resolution of 100% of P0 incidents within SLA for Flipkart's internal feedback system.
  4. Femo (Flipkart) – Conceptualized and delivered 7+ major enhancements, boosting platform engagement by 20% quarter-on-quarter.
- **Responsibilities:** Feature ideation, requirements gathering, documentation, product road mapping, stakeholder management, agile delivery management.

RPA Consulting

- Delivered 50+ RPA automations within Flipkart using UiPath across HR, CX, Ekart, Jeeves/F1 and Finance verticals.
- Drove 15,000+ annual man-hours saved and reduced process turnaround time by up to 60% through automation-led efficiency improvements.

Key Highlights:

- Successfully delivered *Horizon 360* and *Lounge* within tight timelines, ensuring zero critical defects at go-live.
- Established streamlined feedback loops with stakeholders, reducing requirement finalization cycles.
- Recognized for resolving multiple high-priority incidents with minimal downtime.

2. **Tata Consultancy Services – Business Analyst:** (July 2021 – August 2023)

RPA Delivery

- Delivered 20+ RPA use cases and 2 migration projects to Automation Anywhere, achieving 100% on-time delivery and full compliance with client requirements.
- Led end-to-end business analysis including requirements gathering, BRD & functional specification creation, pre-study & complexity analysis, and process workflow definition.
- Coordinated with cross-functional teams and facilitated developer handoffs to ensure zero rework during development.
- Managed UAT planning, test case validation, process walkthroughs, and post-go-live hyper care for multiple business units.

Master Data Management (MDM)

- Managed 8 MDM interfaces, providing full support for 4 key integrations, executed data mapping, gap analysis, and finalized system integration rules.
- Supported 300+ global users in post-deployment issue resolution and tracked progress via ServiceNow (SNOW).
- Scheduled and facilitated workshops to align business and technical stakeholders on data governance and automation strategy.

Key Highlights

- Reduced process execution time by 40% through automation optimization.
- Enhanced data accuracy across MDM systems by 15% via improved mapping and integration rules.
- Maintained consistent reporting cadence with IT leadership, delivering weekly project status updates to ensure transparency and alignment.
